

# BRIDGE BUILDING

Red-D-Arc Welderentals™ supports bridge building and maintenance projects by providing welders, induction heating systems, diesel power generators and more. We carry multi-operator welding paks to equip large teams and can deliver any volume of equipment needed.

Red-D-Arc provided equipment for the construction of Pont Samuel-de Champlain bridge in Montreal, QC.

“Our expectations were exceeded with the equipments’ excellent performance and consistent support and service from the Red-D-Arc team.”

**Generators**  
**Wire Feeders**  
**Turning Rolls**  
**Stud Welders**  
**Diesel Welders**  
**Smoke Extractors**  
**Plasma Cutting Machines**  
**Power Distribution Panels**  
**Induction Heating Systems**  
**Multi-Operator Welding Paks**  
**Submerged Arc Welding Systems**
